Dear Colleagues and Friends:

You are invited to participate as a sponsor for the upcoming International High-Level Radioactive Waste Management (IHLRWM) Conference to be held in Knoxville, Tennessee, April 14-18, 2019. The organizing committee's vision for the IHLRWM 2019 meeting is to utilize the region's strong, unique, and wide expertise in the field of high-level waste management to develop a diverse and interesting technical program. Our group also seeks to expand the scope of the meeting to several areas that have been underrepresented in past IHLRWM events.

This conference provides an international forum to discuss current challenges and recent advances in science and engineering which are poised to transform how the U.S. and international community store, dispose, and transport spent fuel and high-level waste (HLW). As reflected in this year's theme, the conference is also intended to emphasize the urgent, global need for spent fuel and HLW long-term storage, transportation, and disposal solutions, to be implemented by future generations born well after the development of this power source. Transferring information to these generations requires active participation from industry, government, academia, policy-makers, and the interested public. Student participation is a key element of this conference, and there will be a special emphasis on knowledge transfer to graduating engineers and scientists working toward realistic storage and disposal solutions to benefit their generation.

The Oak Ridge/Knoxville (OR/K) Chapter of the American Nuclear Society is hosting this, and we are asking for your support in this endeavor. The OR/K ANS local section has a long history of organizing professional meetings and public outreach activities, including middle and high school science teacher workshops, K-12 class room demonstrations, and various domestic and international topical meetings for ANS (such as PHYSOR 2012, RPSD 2014, and M&C 2015). Through our long history we have made many connections with nuclear professionals in the East Tennessee area and are confident that we will be able to put on an outstanding event.

Please, consider making a tax-deductible contribution to the IHLRWM conference by returning the attached Sponsorship Form with a check payable to "ANS OR/K Section: IHLRWM."

Thank you for your time and consideration.
